

# CLINICAL PROGRAMME GROUPS - OVERVIEW

## CPG OVERVIEW

- Aiming to deliver whole pathway transformation across a range of clinical programme areas.
- Clinical programmes take a pro-active approach to preventing disease, diagnosing and treating and managing the condition from its early stages.
- We aim to design services and approach to care in an integrated way with a range of health and wellbeing partners across Gloucestershire for physical and mental health.
- Programmes aim to achieve the best possible outcomes within the available financial resources with a key aim of reducing the health inequality gaps.

## MISSION & VISION

Our **Mission** is to:

'Systematically redesign the way care is delivered in the One Gloucestershire system by all partners working together to reorganise and integrate systems to deliver the right care, in the right place, at the right time.

Our **Vision** is to:

"To deliver high-value, integrated care that uses population health data to support the whole population of Gloucestershire to have the best possible physical and mental health outcomes and to lead the most happy and healthy lifestyles for them.

## CLINICAL PROGRAMMES

- Respiratory
- Diabetes
- Circulatory
- Frailty & Dementia
- Mental Health
- Pain Management
- Eye Health
- End of Life & Palliative Care
- Children & Young People
- Women & Maternity
- Urgent & Emergency Care
- Learning Disabilities & Autism
- Cancer
- MSK

## STAKEHOLDER ENGAGEMENT

All clinical programmes have membership from across health providers, the integrated care board, public health and the voluntary and community sectors. Clinical programmes also work with people with lived experience both through membership of the groups, as well as in some areas specific reference groups. We recognise that some of the clinical programmes have closer links with the VCSE and patient groups than others, and we are keen to use this event to strengthen partnership with the VCSE across a broader range of programme areas for the benefit of the health and wellbeing of the people of Gloucestershire.

 [glicb.clinicalprogrammegrups@nhs.net](mailto:glicb.clinicalprogrammegrups@nhs.net)

# GLOUCESTERSHIRE VCS ALLIANCE OVERVIEW

## VCSE OVERVIEW

There are over 1,800 charities in Gloucestershire, more than 300 Community Interest Companies; numerous smaller organisations and community groups that make up the VCSE sector. They are in every part of the county and cover a wide range of priorities including health, wellbeing, social care, education, childcare, the natural environment, animal welfare, arts and culture. These organisations are an integral part of our communities and their reach, agility and relationships create significant contributions of support at a local level.

## LEADERSHIP

Each VCSE organisation is independent and has its own leadership and decision-making processes. The sector is supported by a number of infrastructure bodies. This includes Gloucestershire VCS Alliance which aims to be a voice for the sector.

In 2022 the VCS Alliance brought VCSE organisations together to design and implement a framework for engaging with the Integrated Care System (ICS). This resulted in the development of an elected group of sector leaders who form the VCSE Strategic Partnership.

This group represents the sector at system level and leads on building the relationship between the VCSE sector and the ICS.

## VISION & VALUES

The VCSE Strategic Partnership is responsible (from a VCSE perspective) for overseeing the implementation of the Memorandum of Understanding between the VCSE sector and the ICS. This is based on the following values and principles:

Working together: collaboration, equity and integrity.

Working with individuals and communities: impactful, community-focused, person-centred and creative.

These values were agreed through a programme of engagement events with members of the VCSE sector and the ICS.

## STAKEHOLDER ENGAGEMENT

The VCSE Strategic Partnership has appointed representatives to each of the Integrated Locality Partnerships (ILP's). Reps are responsible for liaising with local VCSE organisations, reflecting their views, ideas, and concerns and encouraging them to contribute to ILP workstreams.

 [info@glosvcsalliance.org.uk](mailto:info@glosvcsalliance.org.uk)

# DIABETES & ENDOCRINOLOGY

## CPG OVERVIEW

All age clinical programme group that supports service transformation for diabetes and endocrinology for patients in Gloucestershire.

## PROGRAMME VISION

We believe in delivering high value, integrated diabetes care that uses population health data to support the population of Gloucestershire to have the best possible health outcomes; to lead the most happy and healthy lifestyles. Considering the expected increase in people living with diabetes in Gloucestershire in the next 5 years the aim of the programme is to slow the growth of people living with type 2 diabetes and improve health outcomes for people living with type 1 & 2 diabetes. The programme seeks to consistently address a set of underpinning principles; Provision of place-based care, provision of person centred integrated care, focus on addressing health inequalities, delivery of a personalised care approach to diabetes and a commitment to co-production of new care models.

## KEY PROGRAMME AREAS

The programme has 4 overarching outcomes it is seeking to influence:

- 1) Health Promotion & Disease Prevention
- 2) Earlier Diagnosis and Self-Management
- 3) Provision of Best Possible Treatment & Reduced Disease Complications
- 4) Health Care Professional Education

## PRIORITIES OF THE YEAR

- Increase referrals to and uptake of the National Diabetes Prevention Programme (NDPP).
- Provide best treatment to reduce complications, through delivery of the NHS Type 2 Diabetes Path to Remission Programme.
- To implement wider access to Continuous Glucose Monitoring (CGM) for the eligible population within Gloucestershire.
- To co-ordinate services to provide increased access to structured education for individuals, families and carers living with diabetes within Gloucestershire., in line with recent National Institute for Clinical Excellence (NICE) recommendations.
- Restoration and recovery of annual diabetes reviews to include the 9 care processes, to ensure that individuals are meeting the 3 treatment targets.

## CURRENT VCSE INVOLVEMENT

The Diabetes CPG works with a variety of different VCSE Organisations such as, Diabetes UK, The Friendship Cafe, The Afro Caribbean Community Centre, The Ebony Carers Group, GL1 Leisure Centre, Healthy Lifestyles, Active Gloucestershire etc. Please note that these are just some examples of our current engagement with VCSE organisations.

 [glicb.diabetes@nhs.net](mailto:glicb.diabetes@nhs.net)

# LIVING WELL WITH PAIN

## CPG OVERVIEW

The Living Well with Pain CPG is an all-age clinical programme group that supports service transformation for those living with chronic pain in Gloucestershire.

## PROGRAMME VISION

No person living with long term pain in Gloucestershire should feel isolated, unsupported or misunderstood in relation to their experience.

## KEY PROGRAMME AREAS

- Holistic Assessment
- Peer Support
- Understanding Each other
- Social Prescribing & Signposting

## PRIORITIES OF THE YEAR

Scoping and developing the priorities for each of our key workstreams which will contribute to service transformation.

## CURRENT VCSE INVOLVEMENT

GL11 is a community hub for everybody, they aim to bring people together and to help them make connections with each other and believe that this will create a stronger community where everyone feels included.

GL11 are part of our stakeholder group and have been working closely with us to conduct research about what patients want and what the current perceptions are.

Together with the Living Well with Pain Programme, Active Gloucester have developed an exercise and physical activity initiative focussed on giving patients living with persistent pain, the resources needed to self-manage their pain and its impact. It's Your Move is a free virtual physical activity programme for people living with persistent pain. Patients attend a 10-session community instructor led programme focussing on a gradual and paced introduction to activity and supporting quality of life measures that are important to each person.

Artlift offer free sessions for those living with chronic pain, sessions are led by experienced and supportive artists who will introduce participants to a range of fun and creative activities. Artlift also has a Creative Navigator who can work with people on a bespoke programme including 1-1 sessions where required. This is for adults who are frequent primary care service users and/or who are unable to engage online or in the community.

We also work with other organisations such as Pain Concern, Versus Arthritis, Community Wellbeing, Live Well with Pain, Gloucestershire Creative Health Consortium and Forest Voluntary Action Forum. Please note that these are just some examples of our current engagement with VCSE organisations.

[glicb.pain@nhs.net](mailto:glicb.pain@nhs.net)

# MSK MUSCULOSKELETAL

## CPG OVERVIEW

Over 20 million people (one third) of people in the UK have a musculoskeletal (MSK) condition[1]. These conditions affect the joints, bones, muscles, and spine, and include inflammatory conditions (e.g. rheumatoid arthritis), conditions of MSK pain (e.g. back pain), and osteoporosis and fragility fractures.

## PROGRAMME VISION

Minimise pain, minimise progression, and increase function in patients who have MSK conditions, within the available resources.

Ensure that the right person, gets to the right place, at the right time, and receives the best-quality care to meet their needs.

## KEY PROGRAMME AREAS

- Promoting opportunities for self-management and integration with voluntary and community resources (e.g. via the GetUBetter App)
- Working to improve the pathways for complex disease management (e.g. with the Rheumatology service)
- Working to help prevent people suffering from a fall
- Undertaking improvement projects focused on MSK physio pathways

## PRIORITIES OF THE YEAR

- Evaluation of the Gloucestershire MSK Self-management app, GetUBetter, to understand user and clinician experiences and the impact on primary care and community MSK services
- Gap analysis of MSK pathway and Therapy services in Gloucestershire to inform service improvement and transformation projects
- Continue development of an MSK Dashboard to better understand performance of MSK services in Gloucester
- Engage Rheumatology service users (Experts by Experience) in providing their feedback on the service

## CURRENT VCSE INVOLVEMENT

The MSK CPG has so far had limited involvement with VCSEs and is keen to understand more about the local VCSE offer and explore how we can work together to improve experience and outcomes for patients in Gloucestershire.

# CANCER

## CPG OVERVIEW

We aim to save lives and reduce the impact of cancer on the health and wellbeing of people in Gloucestershire. We work collaboratively across Gloucestershire, bringing together clinicians, managers, support staff, patients, people, charity and community sectors to deliver the programme together. We use a Population Health Management Approach (data insights to improve health and wellbeing) to understand where we can make the most difference for people in Gloucestershire and work together to improve outcomes in Cancer.

## PROGRAMME VISION

We want to save lives and reduce the impact of cancer on the health and wellbeing of people in Gloucestershire by:

- 1) Reducing cancer occurrence through effective prevention
- 2) Decreasing the severity of disease through earlier and faster diagnosis
- 3) Improving best practise and streamlining pathways to support improved patient outcomes
- 4) Improve health and wellbeing outcomes by minimising treatment variation and providing personalised care and support.

## KEY PROGRAMME AREAS

- Enable equity in access to services
- Diagnose 75% of cancers at earlier stages by 2028 by promoting engagement with screening programmes and increasing awareness of signs and symptoms
- Support primary care to recognise symptoms and refer patients for further investigations

- Diagnose people quickly and deliver the most effective treatment by improving pathways and introducing new innovations and technologies
- Supply personalised care and support to all cancer patients and those who support them.

## PRIORITIES OF THE YEAR

- Have a targeted approach to those communities with the highest risk of developing cancers
- Ensure that patients are diagnosed and treated equitably and in line with national timescales
- Targeted and planned cancer awareness engagement
- Supporting all local Gloucestershire NHS to deliver high quality cancer services
- Ensure a personalised approach to supporting all Cancer patients.

## CURRENT VCSE INVOLVEMENT

We work with a range of national and local charities, support groups and communities across our programme. Some of the work we do includes mapping and understanding what each other offer so we can make use of offers and appropriately signpost between services, engaging with communities and groups to understand their needs and then co-producing/designing how best to meet them, jointly designing and funding projects and education and ensuring our programme is designed collectively making best use of knowledge and strengths.

 [glicb.cancer@nhs.net](mailto:glicb.cancer@nhs.net)

# RESPIRATORY

## CPG OVERVIEW

The Respiratory CPG is a well established Clinical Programme Group which works collaboratively with its members. Our membership includes clinicians, operational staff, allied health professionals and patient representatives who work collectively to achieve our vision. Our work spans Primary, Secondary and Community Care which facilitates truly integrated respiratory care.

## PROGRAMME VISION

Our vision is to support the health and wellbeing of people with chronic respiratory illnesses and the respiratory needs of those with other medical conditions. We will use the skills of specialist clinicians on a coordinated and integrated pathway to transform the quality of care we provide. This will focus on individualised, joined-up care, with the aim of supporting people to manage their own conditions and giving them the best possible quality of life. We believe a fundamental approach to delivering this vision is to work together in a collaborative way.

## KEY PROGRAMME AREAS

- Primary Care Development and Support
- Complex Disease Management
- Admission Avoidance

## PRIORITIES OF THE YEAR

- Continue to grow our Respiratory Locally Enhanced Services and the reach of our Respiratory Champions
- Further develop our integrated pathways to maintain patient experience and care continuity
- Go Live with a full Respiratory Virtual Ward offering
- Grow our Acute Respiratory Infections Hubs by evaluating and adapting from the first six months of 2023.
- Develop and implement strategies which increase uptake of our Pulmonary Rehab and increase rates of completion.

## CURRENT VCSE INVOLVEMENT

Mindsong currently provide services for our Respiratory patients. We are keen to understand more about the local VCSE offer and explore how we can work together to improve experience and outcomes for patients in Gloucestershire.

 [glicb.clinicalprogrammegrups@nhs.net](mailto:glicb.clinicalprogrammegrups@nhs.net)

# EYE HEALTH

## CPG OVERVIEW

The Eye Health Clinical Programme Group provides a holistic approach to transform, integrate and lead on the development of Eye Health services in the county. The CPG aims to ensure patients receive the best experience by prioritising service user involvement and service quality, improving delivery of service and utilising public health intelligence to reduce variation.

## PROGRAMME VISION

Working to prevent avoidable sight loss through predictive prevention, tailored screening, case finding, early diagnosis and intervention, as well as ameliorate consequences of sight loss & eye health complications through better supported self-management.

## KEY PROGRAMME AREAS

### Purpose: (Why)

- Transform, integrate, and lead on the development of eye health services
- Navigate through multiple eye comorbidities to ensure service users receive the best experience.

### Mission: (How)

- Prioritising patient and service user involvement

- Improving quality and delivery of service
- Troubleshooting when problems arise in provision
- Using public health intelligence.

## PRIORITIES OF THE YEAR

1. Continue to commission the Vision Care for Homeless service in Gloucester City
2. Delivery and evaluation for Gloucestershire's Community Ophthalmic Link system and source recurrent funding
3. Establish a project group to tackle the 'Did Not Attend' rates for Gloucestershire's Diabetic Eye Screening Service
4. Launch a pilot community Low Vision service that offers countywide domiciliary and in practice assessments and visual aids.

## CURRENT VCSE INVOLVEMENT

- Thomas Pocklington Trust
- Forest Sensory Services
- Royal National Institute of Blind People (RNIB)
- Vision Care for Homeless People (VCHP)

 [glicb.clinicalprogrammegroups@nhs.net](mailto:glicb.clinicalprogrammegroups@nhs.net)

# ADULT MENTAL HEALTH

## CPG OVERVIEW

To clinically lead, with a diverse group of stakeholders, who will support the co-produced delivery of the clinical aspects of the Gloucestershire Mental Health and Wellbeing Strategy by providing leadership and assurance. The CPG will ensure the mental health programme is in line with the NHS Long-Term Plan and is evidence-based to deliver the best health outcomes for people with mental issues including those with serious mental illness (SMI).

## PROGRAMME VISION AND KEY AREAS

- Collaborative, iterative and user centred approach to service design in Gloucestershire
- Crisis Alternatives: Achieve 2022/23 LTP targets of 100% coverage of 24/7 crisis provision which combines: Crisis Assessment, Brief Response & Intensive Home Treatment for CYP
- Eating Disorders: Implementation of a new place-based community mental health model. Ensuring joined up and whole population approaches to establish revitalised community services that improves care for people with mental illnesses.
- Annual Physical Health Checks for Serious Mental Health: Implementation of a new place-based community mental health model. Ensuring joined up and whole population approaches to establish revitalised community services that improves care for people with mental illnesses.

- VCSE Schemes: Contract and performance management of IAPT services including access and workforce, including opportunities for improvement as outlined and funded via MHIS
- CMHT Model: Implementation of a new place-based community mental health model. Ensuring joined up and whole population approaches to establish revitalised community services that improves care for people with mental illnesses.

## PRIORITIES OF THE YEAR

There is work taking place to determine the priorities for the next 12 months. However, the above topics will remain.

## CURRENT VCSE INVOLVEMENT

- Membership includes
- Inclusion Gloucestershire
- MHELO
- People Plus
- Kingfisher Treasure Seekers
- VCS Alliance
- Young Glos

Plus MHELO work with us with a group of Experts by Experience called the Clinical Programme Action Group, who we co-produce many pieces of work and share with us their priorities for the group to focus and feedback on.

 [glicb.allagemhreturns@nhs.net](mailto:glicb.allagemhreturns@nhs.net)

# CHILDREN & FAMILIES

## CPG OVERVIEW

This group oversees clinical priorities for children and young people in Gloucestershire. The CPG is a collaborative group across Gloucestershire ICB, Gloucestershire Hospitals Foundation Trust, Gloucestershire Health and Care Foundation Trust and Public Health England.

## PROGRAMME VISION

Our vision is to improve outcomes for children and young people by improving access to healthcare services, providing early intervention, reducing health inequalities and preparing for adulthood. We will work to ensure that the varied organisations and services working for children and young people do so as an integrated system.

## KEY PROGRAMME AREAS

- Integrating Children's Services
- Ensuring we meet our statutory requirements in relation to the health needs of children and young people
- The management of complex conditions
- Appropriate settings of care

## PRIORITIES OF THE YEAR

- Investment into Neurodiversity services and pathway

- Children & Young People Integrated Weight Management Pilot
- Children's Speech, Language and Communication Review
- Expansion of Community Respiratory Physiotherapy service
- Development of a lifetime home for a specific young person

## CURRENT VCSE INVOLVEMENT

We are working with the Parent Carer Forum and the Parent Carer Alliance on a range of areas. Inclusion Gloucestershire have been commissioned to gather the views of neurodiverse CYP and we have funded a neurodiversity network co-ordinator in Active Impact.

Kingfisher Treasure seekers have done a project for us to understand barriers to CYP accessing Annual Health Checks.

We have also contributed funding to You're Welcome and we gave out grants to local community groups to run autism friendly activities for children and young people. As part of our healthy weight agenda we also have done work alongside Forest Voluntary Action Forum (FVAF) and Active Gloucestershire (AG).

 [glicb.clinicalprogrammegroups@nhs.net](mailto:glicb.clinicalprogrammegroups@nhs.net)

# FRAILTY & DEMENTIA

## CPG OVERVIEW

The Frailty and Dementia CPG (F&D CPG) brings together key stakeholders from organisations across Gloucestershire. It seeks to ensure a whole system approach to the delivery and development of frailty and dementia care in Gloucestershire.

The Clinical Programme Board delegate responsibility to the F&D CPG to develop and deliver plans and priorities that reflect, local need, national guidance, and targets. The F&D CPG has interdependences with a number of workstreams, programme areas and links across, Health, Social Care, voluntary and independent sector.

## PROGRAMME VISION

The Frailty and Dementia CPG seek to deliver the personalised, proactive approach to frailty and dementia, supporting individual and their carers to live well, as independently as possible at or close to home.

The vision for frailty as outlined in the Frailty Strategy 2022 is that the people of Gloucestershire will live healthier, happier and longer lives.

The Dementia Strategy (2023) outlines that the people of Gloucestershire will take action to prevent themselves becoming unwell and to live as well as they can for as long as possible. The vision for dementia is that the whole system works together providing high quality and appropriate support to people affected by dementia throughout the person's journey with dementia.

## KEY PROGRAMME AREAS AND PRIORITIES OF THE YEAR

### Frailty

- Prevention of frailty
- Identification of frailty
- Management of frailty
- Workforce

### Dementia

- Prevention of dementia
- Diagnosis of dementia
- Supporting well
- Living well with dementia
- Dying well with dementia

## CURRENT VCSE INVOLVEMENT

All projects are developed in collaboration with partners such as Age UK, Healthwatch and Carers Hub. Through the dementia action alliance, a number and range of VCSE organisations at locality level, including the Alzheimer's Society and Mind Song.

 [glicb.ageingwell@nhs.net](mailto:glicb.ageingwell@nhs.net)

# URGENT & EMERGENCY CARE

## CPG OVERVIEW

The Urgent and Emergency Care (UEC) CPG provides a holistic approach to the transformation and development of unscheduled care pathways (and the systems in place to deliver them). We work collaboratively with all stakeholders to develop an integrated system and pathways of care, improve the patient and staff experience, improve quality of care, achieve good outcomes, and deliver within an agreed financial budget.

## PROGRAMME VISION

To improve the efficiency, effectiveness and quality of urgent and emergency care to deliver the best possible care and outcomes to people experiencing unexpected or traumatic health issues. We will use the skills of specialist clinicians on integrated pathways, and through multiple coordinated access points, to transform the quality of care we provide. This will focus on expert, joined-up care, with the aim of supporting people through the prevention of urgent care escalation where possible, alongside the most appropriate diagnostic, treatment and rehabilitation route for the best possible quality of life.

## KEY PROGRAMME AREAS

In 2023/24 we have embarked on a system wide UEC transformation plan to focus on:

- Prevention of the need for urgent or emergency care
- Community Urgent response and Front door

- Hospital Flow
- Intermediate Care
- Use of community care packages

These areas will be supported by several enablers, including a focus on workforce and organisational development.

## PRIORITIES OF THE YEAR

Our priorities for this year include: Falls Assessment and Prevention, Maximising the use of our community urgent response services (such as Rapid Response), Development of a Clinical Assessment Service, Enabling Flow at the Front door (with a focus on certain populations such as Frailty) and within hospital setting to reduce length of stay, Increasing the use of Home First to reduce the need for Discharge to Assess beds in order to support more people to return home after a hospital stay.

## CURRENT VCSE INVOLVEMENT

The VCSE sector is an essential part of our system design from supporting transformation programme through Patient Reference Group, to delivering key elements of our urgent and emergency care system pathway (such as within hospital setting, enabling patients to return home with support, providing support to carers alongside all the fantastic work in localities). We are keen to work with the VCSE on the further development and delivery of UEC improvement.

 [glicb.uecandsystemflow@nhs.net](mailto:glicb.uecandsystemflow@nhs.net)

# PALLIATIVE & END OF LIFE CARE

## CPG OVERVIEW

“End of life care is a system wide approach. A range of agencies are often involved at the end of a person’s life. This will include different parts of the NHS: GPs, community services and hospitals, also care providers in the community or care homes, councils, hospices and voluntary sector organisations. Of course, there is critical involvement from the individual and their family and friends. The pattern and scope of involvement will vary for every individual, but for people to have a ‘good’ death all the parts need to work together.”

The palliative and end of life care CPG aim to reflect this system working in their approach.

## PROGRAMME VISION

“I can make the last stage of my life as good as possible because everyone works together confidently, honestly and consistently to help me and the people who are important to me, including my carer(s)” ‘Every Moment Counts’ National Voices, National Council for Palliative Care and NHS England.

## KEY PROGRAMME AREAS

The 6 ambitions for Palliative and End of Life Care developed in 2015 (and relaunched essentially unchanged in 2021) remain the framework for local action

- Each person is seen as an individual
- Each person gets fair access to care
- Maximising comfort and wellbeing
- Care is coordinated
- All staff are prepared to care
- Each community is prepared to help.

## PRIORITIES OF THE YEAR

**Early identification-** Continue to improve and promote the need for early identification with the purpose of avoiding a crisis response

**Enhanced pre and post bereavement support -** Develop consistent pre and post bereavement support across Gloucestershire

**Joining up our data -** Development of an ICS dashboard and a digital personalised care plan that can be shared

**Access to 24/7 advice and support -** Scope and develop a 24/7 palliative and end of life care support and advice offer

## CURRENT VCSE INVOLVEMENT

Our hospice at home providers are key members of our CPG as is Cruse Bereavement support. Representatives from these organisations regularly attend the CPG, feeding into workstreams, and helping to inform and develop strategic priorities.

 [glicb.endoflifeteam@nhs.net](mailto:glicb.endoflifeteam@nhs.net)

# CIRCULATORY

## CPG OVERVIEW

Cardiovascular disease (CVD) is the leading cause of death worldwide, and yet it is largely preventable. Preventing and managing CVD and its risk factors has the potential to improve health and reduce health inequalities.

## PROGRAMME VISION

The vision is for more patients to be diagnosed with 'Atrial fibrillation, Blood pressure, Cholesterol' conditions and reduce the number of premature deaths caused by CVD.

We will drive forward work to increase the use of cardiac rehabilitation services and improve access to specialist nurses so that more patients with heart failure receive expert care and advice.

## KEY PROGRAMME AREAS

**Earlier diagnosis, secondary disease, and self-management:** improving detection and management of CVD risks in primary care and the community.

**Provision of best possible treatment:** supporting residents to be treated by the right person at the right time in the right place to reduce (re)admission to secondary care.

## PRIORITIES OF THE YEAR

Working with primary care and the wider Integrated Care Partnership, to identify people at risk of cardiovascular disease (blood pressure, cholesterol, and atrial fibrillation optimisation).

Developing a virtual ward for patients with Heart Failure and making improvements to the local Stroke pathway.

## CURRENT VCSE INVOLVEMENT

The Circulatory CPG has so far had limited involvement with VCSEs and is keen to understand more about the local VCSE offer and explore how we can work together to improve experience and outcomes for patients in Gloucestershire.

[glicb.circulatory@nhs.net](mailto:glicb.circulatory@nhs.net)

# LOCAL MATERNITY & NEONATAL SYSTEM

## CPG OVERVIEW

The Local Maternity and Neonatal System (LMNS) is a partnership of organisations, individuals and families working together in Gloucestershire to deliver improvements and oversee safety in our maternity and neonatal services.

## PROGRAMME VISION

Working together in Gloucestershire so that every individual and their family has access to safe, high quality, equitable, and personalised maternity care, giving babies their best start in life.

## KEY PROGRAMME AREAS

- Perinatal Quality and Safety
- Equity, Diversity and Inclusion
- Workforce
- Perinatal and Infant Mental Health
- Postnatal and Neonatal Care
- Maternity Experience

## PRIORITIES OF THE YEAR

Our priorities for 2023/24 are to work with Gloucestershire Hospitals NHS Foundation Trust, Gloucestershire Health and Care NHS Foundation Trust and NHS England to:

- Ensure we are listening to and working with women and families with compassion

- Grow, retain, and support our workforce across the LMNS
- Develop and sustain a culture of safety, learning, and support
- Ensure that all maternity care is equitable and inclusive.

## CURRENT VCSE INVOLVEMENT

The perinatal mental health workstream is a network of statutory and VCSE organisations which provide support for women, birthing people and their partners with regards to mental health in pregnancy and postnatally (up to 2 years after birth). There is close working between the organisations, with some of the VCSEs receiving funding from the ICB. These organisations include Home-Start, Shine, Barnardo's (who run Marvellous Mums), Footsteps and the Nelson Trust.

The Equity, Diversity and Inclusion workstream has engaged with a number of VCSEs to find out what matters to women and to provide support for those experiencing health inequalities, such as Forest Voluntary Action Forum (FVAF).

Gloucestershire Breastfeeding Support Network (GBSN) and Breastfeeding Network (BFN) provide free support to women with breastfeeding, and both are part of the systemwide Gloucestershire Infant Feeding Strategic Partnership (GIFSP).

 [glicb.gloucestershirelms@nhs.net](mailto:glicb.gloucestershirelms@nhs.net)

# AGEING WELL PROGRAMME

## PROGRAMME OVERVIEW

To plan and deliver services and support to enable people to stay well and independent wherever they call home (including care homes), prevent unnecessary attendances at hospital and enable safe and timely discharge after being in hospital.

## PROGRAMME VISION

Working together to enable the population of Gloucestershire to live well, age well and die well. We aspire that individuals, their carers and people that matter to them are engaged with developing services.

## KEY PROGRAMME AREAS

**Urgent Community Response** - Avoiding unnecessary hospital admission and supporting discharge by ensuring that everyone who requires a two-hour crisis response receives one, regardless of where they live.

**Proactive Care** - Providing proactive, multidisciplinary care and support targeted at people living with frailty and complex care and health needs to help them stay independent and healthy for as long as possible at home or the place they call home

**Enhanced Health in Care Homes** - Ensuring that people living in care homes receive the same level of care and support as those living in their own homes.

## PRIORITIES OF THE YEAR

- Urgent Community Response - To exceed the national target of 70% of responding within 2hrs for urgent community response
- Proactive Care - To improve our community service offer reducing geographical inequalities and better aligning physical and dementia provision
- Enhanced Health in Care Homes - To better align and streamline the support offers available to care homes

## CURRENT VCSE INVOLVEMENT

Age UK Gloucestershire represent the VCSE sector at Programme Board and Steering Group level with scheduled pre-meets to discuss the needs of the sector.

Membership of the Steering Group also includes the Alzheimer's society.

Our Enhanced Health in Care Homes Delivery Group includes Care Sector representation some of which has VCSE status.

 [glicb.ageingwell@nhs.net](mailto:glicb.ageingwell@nhs.net)
